2021 winter meeting minutes from 3/25/21 at Kassel Tap.

The meeting was called to order by President Dan Ruck. We discussed what to do if a trap machine breaks down and cannot be repaired in under an hour. We added this rule

“If a trap cannot be repaired in an hour, shooters who were not able to shoot can register at that shoot and make it up at the next shoot.”

Up next was what to do about the club hosting after last year when the 1st 2 host clubs chose to not host on their scheduled dates due to Covid issues. The vote was to return to the schedule as though they had hosted. The rotation sheet will be updated to reflect this.

Cushing did not have shooters in 2020 but did pay their dues at the end of the season hoping to stay in the rotation which did not happen. Their 2020 dues were refunded.

We discussed the paper copies being sent out and the clubs voted that they no longer needed printed copies and would print and share them from the emailed info and post them at their clubs.

The clubs voted to not charge the Sec/Treasure for his rounds of trap. They also offered ammo but I declined for this season.

The meeting was adjourned.

Good Luck
